

I am an Indiana citizen and want to speak against 02-278.
I have enjoyed the Indiana "no call" law for the past several years and do not want to see our state law which we fought hard for to be diluted or eliminated by this proceeding. Prior to the implementation it was not uncommon to have 10 or more calls per day from telemarketers. There was a reason I joined the Indiana do not call list as well as the Federal list. Please protect our privacy and uphold the Indiana No Call List laws.
